PROFESSIONAL SUMMARY

6th-semester Information Systems student with hands-on experience as a Web Developer. Skilled in backend development using Laravel and TypeScript. Experienced in developing scalable web applications, designing efficient database solutions, and collaborating with remote Agile teams.

EDUCATION

Information Systems (Bachelor's Degree) - 6th Semester

2023 - Present

Bina Sarana Informatika University

- Involved in community service projects with lecturers, both independently and through government grants.
- Learned to build mobile applications using Flutter and machine learning projects with Python.

Software Engineering

2020 - 2023

State Vocational High School 3 Banjar

- Experienced in building projects using PHP and the Laravel framework.
- Proficient in building robust SQL-based databases such as MySQL.

EXPERIENCE

Intern, Mutiara Digital Printing Kota Banjar

Feb 2022 - Apr 2022

- Served as a technical assistant in banner printing operations.
- Developed a web-based online printing store application using CodeIgniter 4.

Software Developer Intern, Diskominfo Kota Tasikmalaya

Sep 2025 - Dec 2025

- Responsible for the development and maintenance of the SIMPUS (Community Health Center Information System) application.
- Conducted independent research to map complex health data flows into an efficient database schema.
- Worked remotely using Git-based collaboration systems and Kanban boards.

TECHNICAL SKILLS

Programming Languages: PHP, TypeScript.

Frameworks/Libraries: Laravel, Vue.js.

Tools & Infrastructure: Docker, Git/GitHub, Bruno, Navicat.

Database: MySQL, PostgreSQL.

MAIN PROJECTS

- SIMPUS:** Developed a health data management system with a multi-tenant database architecture.
- SITUGAS:** Developed a student attendance and assignment submission system for MTs BPI Baturompe.
- Perpus Digital:** Developed an application for tracking book loans and reading books online.
- Absensi & Undian:** Developed a face recognition-based attendance application using CNN and a prize raffle system for Tasikmalaya City Hall.
